## Introduction

Industry activity occupies an important position among economic activities in many countries and plays a special role in the economic development process, in the development of other sectors of the economy, in the employment of labor and thus in the contribution to GDP. In view of this importance, and the efforts exerted by the Central Statistical organization to provide accurate annual statistical data, indicating the reality of the activity of this sector in the country in order to develop it and increase its contribution to the GDP, through conducting analytical studies of statistical data, according to economic variables of production, added value, and a fixed capital formation.

The Directorate of Industrial Statistics carries out an annual survey of the factories operating in this sector and produces annual statistics related to the data of these laboratories, including the main indicators of extractive industries (excluding oil) and transformation by public and mixed sectors. It should be noted that attempts since the 1950s in Iraq to distinguish between Handicrafts, home industries, small, medium and large industries by adopting standard employment and fixed assets, where large industries characterized the use of 30 or more workers.

## Objectives of report

- 1-Provide annual statistical data on the activity of large industrial establishments.
- 2-Reduce dependence on estimates in calculating the annual economic changes of the industrial activity.
- 3-Compliance with quality standards for publishing data issued by United Nations.
- 4-Provide annual data for national accounts.

## Data including

It should be noted that the data collection was based on a comprehensive framework that was provided through the results of the general census of economic establishments implemented by the Central Statistical Organization in 2009 and after being prepared and updated by the Directorate of Industrial Statistics in cooperation with the directorates of statistics in Baghdad and the provinces. The statistical community included all the plants whose primary activity is in mining, quarrying and manufacturing. According to the International Standard Industrial Classification of All Activities - Revision 4 (ISIC4). It covered (574) establishments and did not include the governorates (Nineveh, Anbar and Salah al-Din) as well as the province of Hawija to Kirkuk governorate for the security conditions in these governorates. Not covered Kurdistan region.

### Analysis functions of statistical indicators

- **Production of operator** = **production value / Number of operator**
- **Added value** = **Production value - Equipments**
- **Operator production of added value** = **Added value / Number of operators**
- **Production of wages** = **Production value / wages**
- **Average of operator share of equipment** = **equipment value / Number of operator**
- **Average of annual wage of operator operators** = **wages / Number of operators**
- **Rate of manufacture** = **Value of equipments / Production value)\* 100**
- **Change rate** = **Current year / Previous year-1)\*100**

### Terms and concepts

- **Rate of manufacture: the percentage of total equipment value compared to total production value.**
- **Inputs: total of crude value +total packaging items +Total value of other commodity inputs + total services equipments.**
- **Outputs: Value of perfect production +non-perfect production +incomes for others+ commercial activity incomes.**

### **Analysis result of large operated industrial establishments (cumulative) for 2016**

#### **1. Number of establishments**

The number of large industrial establishments amounted 1091 for 2017 with the public frame 475 establishment. Whereas the stopped establishments amounted 517 compared with operated establishments amounted 574 for 2017, with 2016-amounted 586. we noticed the decrees of establishments down to 2%, while the stooped establishment as 47.4% from public frame distributed of 27 governmental sector, 52 public sector, 7-mixed sector, 430 private sector and 1 Foreign sector.

#### **2. Number of operators**

The number of operators amounted 114497 for 2017 within the operators without wages amounted 377 because they are owners of this establishments compared with 2016 amounted 117020 a decline ratio of 2.2%.

#### **3. Wages and benefits value**

The value of wages and benefits amounted 1255 billion dinar for 2017 with 1220 billion dinar for 2016 with increase ratio of 2.9% Due to the low number of establishments.

#### **4. Production value**

Production value amounted 6937 billion dinar for 2017 with 4867 billion dinar for 2016 increased of 42.5% This increase is due to the increase in production of some establishments such as the Union for Food Industries (sugar industry), where a new production line for edible oils has been added And higher production in the southern refinery due to the entry of a new production line for service.

#### **5. Equipment value**

Equipment value amounted 3359 billion dinar for 2017 with 3027 billion dinar for 2016, increase ratio amounted 11%

#### **6. Sales**

Sales value amounted 5862 billion dinar for 2017 with 4631 billion dinar for 2016, increase ratio amounted 26.6%.

#### **7. Added value**

Added value amounted 3579 billion dinar for 2017 with 184 billion dinar for 2016, increase ratio amounted 94.5%.

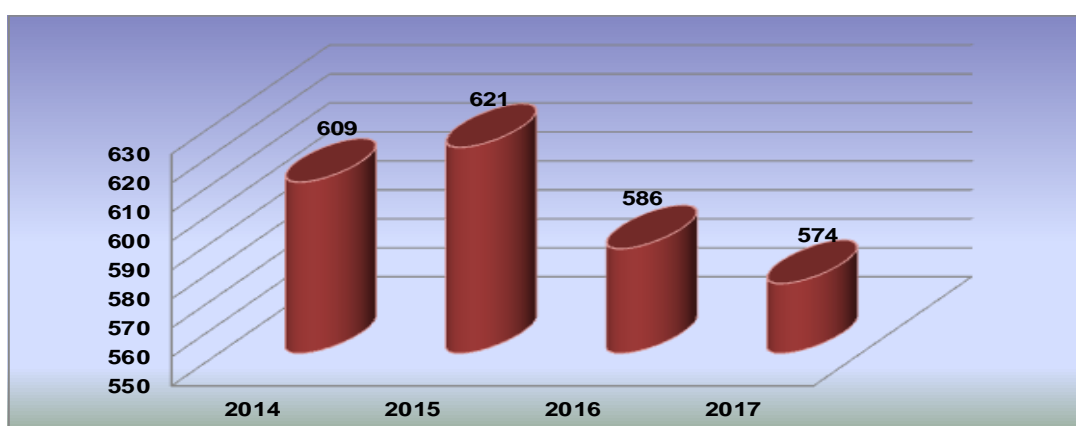

## Statistics of cumulative large establishment operating for 2017

**Table (1) Summary of the results of industrial statistics of the large industrial establishments operating for the years (2014-2017).**

Indicators	2014	2015	2016	2017	Change rate (2016-2017) %
Number of establishment's	609	621	586	574	-2
Number of workers	130487	139224	117020	114497	-2.2
Value of wages and benefits	1414514	1307436	1220420	1255094	2.9
Value of production (million dinar)	4251851	4235550	4866859	6937474	42.5
Value of equipment (million dinar)	2033121	2271691	3027024	3358774	11
Sales (million dinar)	3465113	3918135	4631424	5861615	26.6
Added value (million dinar)	2218729	1963860	1839835	3578700	94.5
